---

**Heluna Health<sup>®</sup>** is a leading provider of program and support services across the population health spectrum.

We empower academic researchers, public-private consortia, public health agencies, and nonprofits to achieve positive health outcomes.

---

# We give you the capacity to develop and implement population health programs quickly and efficiently.

Our customized and collaborative approach to social innovation helps you address the unique needs of the communities you serve.

As a fiscal sponsor and service provider, we support partners and build programs across the continuum of population health. Here are just some of the health topic areas we address:

Chronic Disease

Community Health

Disaster Preparedness & Public Safety

Disease Outbreak Investigation

Early Childhood Health & Education

Emerging Infections

HIV/AIDS & Communicable Diseases

Homeless Support Services

Maternal & Child Health

Nutrition & Obesity Prevention

Overdose Prevention

Tobacco Cessation & Substance Use

**Our partner support services help you maximize your funding and streamline your workload so you can focus on what you do best.**

## **Contracts & Grants Management**

We help our partners navigate complex grants and contracts through proposal development and submission, negotiation, and pre and post-award grant support. Our clients trust us to oversee over \$100 million in public health funding annually.

---

## **Human Resources Services**

Population health professionals turn to us for rapid recruitment, team training, payroll, benefits administration, and more to help them build and retain successful teams.

---

## **Fiscal Sponsorship & Accounting Support**

As the leading fiscal sponsor solely focused on population health, we provide a 501(c)3 'umbrella' for your program. We can also build your capacity with financial performance tracking and reporting, accounting, auditing, and budgeting solutions.

---

## **Custom Solutions**

Whether you need expertise with fundraising, social marketing, IT services, lease administration, or research and evaluation, we can help you meet your mission and reduce overhead costs.

Get in touch with us to see if our partner support services are right for you.

**Our innovative  
partnership model  
is at the core of the  
successful programs  
we help to build.**

---

# Social Innovation

Building partnerships to fill critical gaps across systems and sectors is what drives us to constantly innovate to achieve positive health outcomes. Our ability to adapt quickly in a changing landscape is our core strength in building effective coalitions to address community-based needs.

---

# Program Development

Let us help you design a new program or strengthen an existing initiative to improve population health outcomes. From design, monitoring, evaluation and reporting, we're your partner every step of the way.

Grant Identification

Grant Writing & Submission

Program Design & Evaluation

Post-award Grant Management

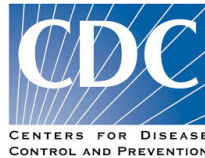

**“I can’t thank you enough for the excellent services, attention to detail, collaboration, and professionalism you brought to this process of rolling out funds to local health departments and vector agencies.”**

**- Cheryl Starling, RN**

*Center for Infectious Diseases, California Department of Public Health*

# Direct Service Programs

In addition to supporting our partners, Heluna Health designs and implements our own evidence-based health programs that strengthen communities across the country. Featured programs include:

**PHFE WIC**, a program of Heluna Health, is the largest nonprofit WIC (Special Supplemental Nutrition for Women, Infants and Children) network in the U.S., serving approximately 200,000 women, children and families annually.

The evidence-based **Little by Little School Readiness Program** engages low-income families and fosters early literacy skills to improve school success for children.

**Youth and Adult Development Services** promotes peace, self-sufficiency and quality of life through gang intervention, violence prevention, case management, and job readiness services, so that future generations can succeed.

**Heluna Health®**

**We believe strong partnerships  
build strong communities.**

---

Let's work together to help more people  
live healthy and productive lives.
